Subject • Dual Use Lockboxes

Dual Use Lockboxes

As we move forward in the transition of services, LabCorp Indiana, Inc. and South Bend Medical Foundation would like to make our clients aware of changes they will see in regards to specimen lockboxes. As new and replacement lockboxes are distributed to clients, they will now be labeled with both the LabCorp, Inc. and SBMF names.

Clients should use the new lockbox or their existing SBMF lockbox for both clinical and pathology specimens, as has always been the case. The same courier will be utilized to transport both types of specimens back to the testing laboratory. There will be a gradual replacement of all SBMF lockboxes to this new LabCorp/SBMF lockbox, for clients who send in both clinical and pathology specimens.

As always, we thank you for choosing LabCorp Indiana, Inc. and the South Bend Medical Foundation to fill your clinical laboratory and pathology needs.
