

## Inventory Check: COVID-19 Supplies

LabCorp has been working hard to address the spread of COVID-19, in keeping with our mission to improve the health of our communities. We would like to collaborate with our clients in an effort to pull together for the community good. We are requesting that clients look through their inventory to determine if they have an overstock of any unexpired dry swabs or media pictured below. These supplies are much in demand, and we are already facing a nationwide shortage.

If you determine that you have available supplies, please send them in a bag labeled “Extra COVID supplies” with your routine courier. For your convenience, any extra supplies, bagged and labeled “Extra COVID supplies” may also be dropped off at any LabCorp PSC site.

Working together as one team with our clients and community, will be essential, in order to stay ahead of the COVID-19 crisis. We appreciate your cooperation in this matter.

Soft Aluminum Wire Dry Minitip Swab

Nasopharyngeal Dry Flocked Swab

Remel viral transport media  
(Thermo Scientific)

UTM-RT  
Transport  
(Purple-cap)

Copan Universal
