Subject • Specimen Lockboxes

## Dual-Use Specimen Lockboxes

As we move forward in the transition of services, LabCorp Indiana, Inc. (LabCorp) and South Bend Medical Foundation (SBMF) would like to make our clients aware of changes they will see in regards to specimen lockboxes. As new and replacement lockboxes are distributed to clients, they will now be labeled with both the LabCorp and SBMF names.

Clients should continue to use the new lockbox or their existing SBMF lockbox for both clinical and pathology specimens. The same courier will transport both specimen types back to the testing laboratory. There will be a gradual replacement of all SBMF lockboxes for clients who send in both clinical and pathology specimens. Going forward, all new and/or replacement lockboxes will be labeled with both the LabCorp and SBMF name.

As always, we thank you for choosing LabCorp and SBMF to help meet your clinical laboratory and pathology needs.
